

CONTROLLING PROGRAMS OF FORCES OF DARKNESS

Processed by Ivo A. Benda.

1.8.1999.

Place: Zlin.

The effort of Dark forces to control inhabitants of the Earth has already lasted for 300.000 years and this phenomenon is quite usual. It is a new thing just for ordinary people because the whole society is controlled to such a large extent that only a few people would have thought about it. The basic mechanism is easy, it is based on the condition of equal energies – esoteric rule, the same attracts the same. People who think in a negative way are bound to receive thought-impulses radiated by dark forces, especially by saurians, and in this way people's bad thoughts become even worse. This is the basic – primary control.

*Secondary – following control works like this: dark forces **make up cunning controlling programmes in advance, they are based on low spiritual – moral character and on lack of love**, so that they could work. There are made up **thousands** of programmes like this. Controlling programmes can be cut off by increasing spirituality and love, and by spreading information about them.*

***Controlling programmes of dark forces** belong to plans of our dear **Creator** and He controls the progress on this developing planet by the help of dark forces. **There are thousands of them !!! Creator** himself tells us not to get tricked so easily! **People who are bad, have coarse vibrations, are easy to get controlled by dark forces, which use these controlling programmes made up by these saurians.** There are thousands of cunning programmes, and it depends on people if they see through them and do not get controlled in this way.*

Everyone who is controlled this way HAS HIS OWN WILL TO DECIDE WHETHER HE ALLOWS DARK FORCES TO CONTROL HIM, he is not forced to be controlled like this.** He acts in this way because he has little love and few positive thoughts. Our intelligence is not high enough to disconnect these controlling programmes – IQ 100, which is not enough (saurians are far from being stupid, their IQ is 200, despite this they are bad), but we can make it by **INCREASING OF LOVE FOR OURSELVES**, which means vibrations of our own bodies. I will mention some of these controlling programmes, so that you can see **how it works, how it happens that so many people get tricked so easily.

These days 3 billions people out of 6 billions people of the Earth are controlled by dark forces successfully.

1.8 billions people are partly controlled, 1.2 billions people are not controlled at all or just very little (they have a lot of love and positive thoughts).

The aim of these controlling programmes of dark forces is not to let people increase their vibration =spiritual level, so that they could not get to the fifth dimension, where our Cosmic friends stay. E.g. Mays people managed it. A part of this control is not to let terrestrial people get to know that in the space there are the same people as we are and to prevent our mutual communication and co-operation.

Thousands of cosmic civilizations of Light forces watch sadly how terrestrial people are controlled and are going towards the end of their own civilization. Their coarse vibrations will lead to the purification of the Earth.

The responsibility for the influence of dark forces is not only a matter of the workers of the media but also of the government of this republic.

As a very precise and clear model we can use the excellent performance of “fairy tale” **IMMORTAL AUNT**, which is available on a video cassette of BONTON firm.

The **Creator**, using experience of beings in the environment influenced by dark forces, is creating a valuable and important immune program, which is carried by **strong and uncontrollable beings**, who later when there is an incarnation to the higher worlds of Light forces (e.g. 5th and 7th dimension) **will share the experience from the tough environment** with the original inhabitants, otherwise many of these civilizations are bound to fall to the 5th and 3rd, but even to the 1st dimension!!! Thus it is possible to help these civilizations and we can see that we, terrestrial people, are important here in the Universe and in our dear **Creator's** work. **Through experience of incarnation in the environment influenced by dark forces we can develop our own immune system, which in the future will be resistant to bad influences of dark forces, not only here on a spiritual basis, but it will be presented to other beings with love and useful for them too!!! It depends on the condition that people get rid of the bad influence to be able to move onto higher dimensions.**

1. MEDIA.

Firstly, how they were described by our Cosmic friends from the planet **Alahar**:

“Your information system is just a PERFECT TOOL OF LIES and DECEITFUL MANIPULATION. All our meetings were hidden. At first we made an attempt in the USA. Nearly all your people were put into mental homes at once although they had pictures and video-records...”

People who often sit down in front of TV screens have many own negative thoughts, which they are afraid of, negative energy from TV can cover up their negative thoughts, so that they can lie to themselves that they are different!!! This is their free will.

In our country in newspapers, magazines, TV and radio there is 80% of evil and violence out of all extent (including fighting for money – property).

As a cut example of a successfully working controlling programme we can mention **TV NOVA**. **It is full of violence, including so called “news”, it is about 90% of coarse vibrations**, this controlling programme is watched by many materialistic people.

Just the intro of TV NOVA is the SOURCE, at first there are asteroids flying (it is a place where saurians live), then there is a bang (the symbol of destruction by saurians) and after that there is the main thing THE CONTROLLING PROGRAMME, which is the egg (it belongs to saurians), inside of the egg there is a red ribbon (the controlling programme). It is remarkable how this cunning programme works, and how many people receive it.

Other sources are **newspapers**, where most information is negative, they are also a coarse vibration radiator, and it is the same with most **magazines**, especially erotic and violent ones. There are some magazines that promote dark forces - saurians openly – Magazín 2000, Fantastická fakta, Fakta X, UFO magazín, they show saurians' portraits, which form the guiding vibration programme, which is immediately radiated to the Universe by the reader and then the reader is in danger of being kidnapped by these entities. It is so cunning! That is why it is necessary to get rid of this sort of literature. In the USA people are involved in it up to their ears, but it is their fault, they attracted them. The trick is that "but there is "evidence" ". The key words of this controlling programme are "evidence", "mystery" and the authors want people to believe that they are doing their best to search the truth. But they do not respond to these "Talks" and hundreds of people do not react to the communication with Cosmic people (Tóthová – the director of Magazín 2000, Mátl – Fantastická fakta, and others) and they pretend that there is nothing like this. Thus they block this information vital to everyone. 90% of all the media (newspapers, magazines, TV, radio) are financed by the West, not by Czech people. Consequently there is no freedom of information, this information is not good for people.

I myself have not watched TV for a year, and I feel really good.

2. POLITICS.

Politics is a controlling programme even more cunning than the media, because it makes people feel that it is essential and that they could not do without it. But it is not like this at all, all advanced civilizations can do without politics very well and we have already reached the point, at which we could manage it as well. Cooperating with cosmic civilizations it would turn out clearly that it does only harm to us.

Every politician thinks about himself, he does not care for people. This is a very important fact. That is why there is so much evil and fraud.

Cosmic civilizations of Light forces are headed by spiritual beings on a higher level than inhabitants of a planet themselves.

There is no politician who would struggle for love and tolerance! Politicians do not work with love.

As an example we can take our dear president Václav Havel, who was elected a leader by us. **His main interest is information in the media concerning his person**, but not the real position of the Czech Republic or even the planet Earth (which concerns the planet and its inhabitants, people and the nature). In terms of the information from the Universe he is apathetic and sometimes irritable, he is like an ostrich with his head in sand. Sometimes he presents himself with little hearts but he has never cared whether there is Love in our laws or whether people work with love.

*Me personally, I have not been interested in politics for 2 years, and I feel very good. I elect our dear **Creator**.*

3. ECONOMY.

Our economic system is a saurians' type, it means so called "trade", Mr **Klaus**, perfectly controlled by saurians, brought it here from the West. He thought that it could not work in another way. It is remarkable that **many civilizations could do without money (or wars)**

during their evolution. In this way starting as “cavemen” they reached the level of Cosmic people

But it does not mean that “socialism” is without mistakes (moreover there was money).

This system does not allow people to grow spiritually as they are forced by “financial market” to spend more and more time and energy on MATERIAL (which means the lowest form of creation!), and they have left less free time to grow spiritually. People are exhausted, irritable, have no time, the main interest is not help fellows but MONEY, which is by the way a coarse vibration thought. The more think people about money, the more coarse vibrations they radiate. This is most striking in big cities, such as Prague, there are the most coarse vibrations in all this Czech country.

Cosmic people work for their society 2 – 4 hours a day, the rest of the time they can spend on their own, spiritually growing, it means: education, fun, hobbies, dance, travelling, nature (hiking) etc. Our society has such economy that it would be sufficient to work 4 hours a day, every one would be provided with all basic needs and happy life. There are useless stocks and shops with goods linked with primitive and expensive car transport, useless commercial, state administration, army and variety of other useless things, which in their basic system steal energy from people, (also time is a form of energy).

*As it was described by our Cosmic friends from the planet **Alahar**:*

“Your life-style destroys you, it is an itself-destroying system. This lack of space for basic things is almost unbelievable. Mainly, people always do not have time. The more we watch your world the more we are surprised at your courage that you were born here.” (Especially me and my girlfriend, we do not have to be here, we are here voluntarily with a mission).

I asked Cosmic people, whether living in the Middle Ages used to be worse or not. They said that in the Middle Ages people lived better, more spiritually, they liked each other more (they often met in somebody’s house and they talked until midnight), they spent a lot of time in the country, they did not live in such a hurry and stress as it is now. They were not so interested in money because there was always lack of it. They were not so aggressive and neurotic as some people in our towns, as for example Prague. Moreover, they did not eat so much meat, they were vegetarians (healthy). Children played together a lot and in the country, which is exactly the opposite today. Even if the hygiene was not so developed as it is now, people were more satisfied, balanced and spiritual. There were not so many people (5-10 times less) than now, that is why they had more living-space.

Results of our work are usually not used for people’s sufficient needs, often human work is wasted on “interests of market”. Goods and work is wasted without any aim, in stocks, shops, army, state administration, commercial, bad distribution, also people often buy useless things which they do not need for their every day life (some for example own 3 cars because they think that if they earned honest money, they can spend it on whatever they want – they destroy the planet Earth, just material, parking space, material thoughts etc.)

Cosmic people do not gather thousands of things (for example at home or in a ship) but their living space is furnished purposely. They do not live for material but for themselves and other cosmic beings in the Universe, they live for Creator.

4. CHURCHES.

Churches are one of the controlling programmes of dark forces for a long time, which in the Middle Ages controlled people (when there were not the media and politics) on a huge scale. Also now they affect and manipulate the whole society. Some are kind of sects, where is manipulation and restriction of man's freedom pretty obvious. This planet holds the record in number of churches and sects as far as this Universe is concerned, it shows how strongly dark forces have affected and are still influencing us. **The aim of these controlling programmes is to change people's thinking so that they will not be able to recognize basic Cosmic rules (the principle of love, responsibility for yourself, free will together with reincarnation) and to continue leading people in the Darkness as a flock of sheeps.** Sects are created by dark forces to scare people in their self-destruction, so that people who long for a contact with Cosmic people in coming times, which is right now, also after the evacuation will be this controlling programme used to scare the rest of inhabitants by telling them that evacuated people were killed or kidnapped. Here in the Czech Republic so called "Society for studying sects and sorts of religions" works on this successfully, under the leadership of Mr Vojtíšek in Prague. Everything happens according to a cunning plan of dark forces, but their controlling programmes are not one hundred percent perfect, for some actions of Light forces dark forces do not have sufficient "technology", which we can see now while spreading "Talks".

Christian religious leaders made a resolution to get rid of reincarnation from the original teaching because they were afraid that if people were conscious of a new chance in a next life, they would not be afraid of sin-mistake (which is human nature) so much, they would loose FEAR (coarse vibrations – food for saurians) from higher authorities. The Bible contents, according to DHOH civilization and Pleadian beings, 30 % of the truth. Otherwise there are so many wars and killings, which is not according to the original Christ's teaching. A content of the original teaching was love, the real nature of a man, searching the way to Creator, not wars and killing of people.

The beginning of clear departure of Christian churches (especially of the catholic church) from Christ's teaching of faith appeared in the teaching written and spreaded by apostle Paul. The formal departure was already prepared at the 1st

Ecumenical council in Nikaji in 325 in an argument with Areyan's ideas. The evident departure from Christ's teaching happened at the 5TH **Ecumenical council in Constantinopoli in 553, which proclaimed thesis about reincarnation as a heresy and a rejected apocastasy** (former existence of a soul before physical body).

I myself have not been listed in any church and I feel really good.

5. CATERING – MEAT PROGRAMME, CHEMISTRY, COOKED FOOD.

The way of catering is based on "meat programme", it is the programme which does not enable people to improve their vibration – spiritual level. Domestic animals (it means spiritually highest creatures of the animal kind) are brutally and without any feeling killed in slaughter houses and thus they gather great fear and stress – and those are again coarse vibrations. Primary breaking of a cosmic rule is that bodies of high spiritual animals of animal kind, which are almost at the same level of development as terrestrial men (it is 400 thousand to 1 million lives in a human body out of all 10 million lives at this place of incarnation process), is consumed in enormous number. To live in harmony with cosmic rules it is enough to eat one portion of fish meat, or better any, in two weeks time, as I have already practiced for 2 years.

In the past and in the Middle Ages people bred domestic animals nearby their houses, they were adjusted to them and at most times they liked them. That was why death was not so cruel and also an amount of meat was not so big.

Chemistry in food causes again breaking of cosmic rules, and it also affects every one.

Cooked food programs faster death of cells in our body and this is also the reason of a very short life in one body. Healthy food – plants, fruit, vegetable, not cooked. Cosmic people eat not cooked food. Moreover it is in need to put in it love – the energy of higher quality.

The result of this programme of saurians is aggression and tension of people, which is the effect of coarse vibrations, which are thus constantly kept.

6. ALCOHOL, DRUGS, SMOKING, GAMBLING FOR MONEY, EROTICA.

These controlling programmes are supported by governments and politicians also tolerated. All these actions destroy man's nature and it prevents him from improving his spiritual level with effects of directive structures. They say falsely that they are interested in people of this republic and their speech freedom .

These controlling programmes do not exist at Developed planets because spiritual leaders and their substitutes would not tolerate it .

7. SCIENCE.

Science is also controlled by dark forces to prevent people from spiritual development.
I will mention only some areas out of the whole spectrum of terrestrial science.

Dark forces have always supplied the planet Earth with technology concentrated on guns so that people scare or possibly kill each other. Dark forces were always glad about it. As for the latest activities we remember Hitler who cooperated with these entities, moreover governments of the USA who made pacts with dark forces in order to get their cosmic technology, they enabled them to kidnap people for their experiments, (dark forces used them as guinea pigs – but this happened only to negative people) to create a hybrid race which is not able to survive anyway.

Other activities of dark forces are control of science so that it worked only with energies on the material basis, it means not with higher form of energies – with spiritual activities. As an example of this is acknowledgement of science that the Universe is dead and uninhabited, planets, stars and galaxies are dead mechanical objects (Grygar).

Moreover, dark forces do not enable science to construct a device to measure coarse and smooth vibrations of energies. That is why we do not have any feedback how we are destroying the planet Earth.

*Dark forces control our science in the way of constant transmitting the idea that man is the highest being in the Universe. On one hand it constantly strengthens his ego and on the other hand he, by means of this idea, prevents many people from accepting the notion about Cosmic people, hierarchy and the only **Creator** and this is the aim. According to this there have been created controlling programmes “projects CETI and SETI” – searching for extraterrestrial civilizations. It works with help of enormous devices – radiotelescopes – they*

impose it upon people that we are the only ones in the Universe, otherwise cosmic civilizations would have already contacted us. A very very naive notion.

*In the medicine branch is the science based on a primitive material level, it cures a result of a disease not a cause (spiritual). That is the reason more and more people rather prefer going to practitioners of traditional medicine no matter whether they are good or bad. **The number of sick persons is big, in the Czech republic there were in the year 1998 only 2 % of completely healthy people.** Effect of health care is small, the whole this organization is built up on stealing and frightening people (fear = coarse vibrations).*

*Here I tried to tell you with love dear reader only **some areas of controlling programmes of dark forces.***

***These controlling programmes are like a perfect sieve, they distinguish bad and good people, by means of this they also specify their next incarnation development,** either to higher society in the 5th dimension or to green planets in this Galaxy in the 3^d dimension (there are six of them) there are now primitive tribal nature societies, picking fruits (they do not grow any plants or breed domestic animals, they do not drink milk). This is the Creation of our **Creator** loved by me and by you so much.*

*Now I would like to mention **some variants** of control by negative extraterrestrial beings (mostly by saurians) watched on people in every day life.*

It refers for example to some uncontrollable jerking movements, which are part of this control. Every time it happens on purpose to disable people to complete their original intention, often it happens in a way of useless actions, which prevents people, because they spend a lot of time with them, to complete an original positive intention. It refers to people who are movers and shakers in all areas of the society (it does not refer to people who are already controlled by more primitive programmes, as alcoholism, drugs etc.).

*This can also be felt, to a different extent, by people who spread information about Light forces, but they can dispose of this control by means of love, harmony, meditation, positive thoughts and by leading by the only **Creator**.*

*The whole Universe know about it and it also know that only strong and independent beings have a permission, in this phase of development, enter higher worlds. **This is the most important knowledge for all terrestrial people and it enables them to be really free.***

People,

**do not let anyone or anything control you,
come as you are
follow your own heart and feelings.
Radiate love.**

**Be aware of your inner power and joy
of creating of your own free will.**

Cosmic people.

*More than 7000 pages in Czech and 18000 pages in other languages
and 5000 pictures about Cosmic people – Angels of Heavens –
